SUMMARY

Motivated and resilient Mechatronics Engineering student with practical experience in circuit design, robotics, and embedded systems. Skilled in collaborating on technical projects, independent learning, and applying interdisciplinary skills to real-world problems. Passionate about problem-solving, innovation, and continuous improvement.

WORK EXPERIENCE

Freelance QA Tester | Various Web3 Projects March 2025 - Present

- Tested DeFi and Web3 applications like Plaza Finance, Mango Network, and Manta Network.
- Identified UI/UX bugs, reported issues using DevTools, and verified wallet and staking functionalities.
- Utilized MetaMask, testnets, and browser debugging tools for effective QA testing.

Student | Hands-On Practical January 2025 - Present

- Operated workshop tools including angle grinders, welding, drilling, and lathe machines.
- Learned safety protocols, metal cutting, and rod selection for various welding tasks.
- Gained experience in material handling and equipment operation.
- Worked in peer teams to complete group projects and practical tasks.
- Participated actively in class discussions, demonstrating critical thinking skills.

PROJECTS

- ESP32 Bluetooth-Controlled Robotic Car & Arm: Built and programmed robotic car and arm using ESP32 and sensors (LDR, Ultrasonic), controlled via BT Controller app.
- LED Blinking Circuit: Designed and implemented a cost-efficient LED blinking circuit using Proteus with focus on real-time usage and component optimization.
- Automated Burglar System: Developed an automated security system that uses environmental input to control devices such as bulbs and fans.

EDUCATION

Bachelor of Engineering in Mechatronics Engineering Dec 2023 - Present

Federal University of Agriculture, Abeokuta, Nigeria

Expected Graduation: January 2028

High School Diploma Sep 2017 - Sep 2023

CTY Model College, Ibadan, Oyo State

ADDITIONAL INFORMATION

- **Technical Skills:** Programming, Robotics and Automation, CAD Software, Graphics Design, Microsoft Office Suite
- **Languages:** English, Spanish (Basic)
- **Certifications:** Data Analyst (HP Certification), Health and Safety Education (HSE), Career Essentials in Generative AI (LinkedIn Learning)
- **Awards/Activities:** Best Graduating Student (High School), Best Student (2nd Year)
